## ***AHS' Latest Proposal:***

# ***A Wage Freeze And More Cuts***

Once again, AHS management is proposing cuts and takeaways in the middle of a global pandemic. Last week, their proposal to the general unit included the following. The San Leandro and RN bargaining teams expect similar proposals as they meet with management.

- **A wage freeze**
- **Cuts to shift differentials**
- **Eliminations of benefits our members have fought for, including specific wins for Respiratory Therapists and Medical Clerks**
- **Cuts to access to bilingual pay**

These proposals are completely unacceptable. They attack AHS' workforce exactly when our community needs us most and would cripple us for years to come. **We need to demand community control over AHS immediately. Sign your name to the petition today!**
